Budapest's New Waterfront District

Marina City by Cordia is one of Budapest's most significant and modern waterfront developments, offering a premium quality of life and a long-term, value-retaining investment opportunity right on the Danube.

The project is being developed in one of the most dynamically growing parts of District XIII, where modern architecture, carefully designed green spaces, and excellent infrastructure come together in perfect harmony. The Danube-side promenades, parks, shops, restaurants, and excellent transportation connections ensure that the city center is just a few minutes away, while the proximity to nature becomes part of everyday life.

The apartments at Marina City are equipped with state-of-the-art technical solutions. The heat-pump-based ceiling cooling and heating system, underfloor heating in the bathrooms, electric blinds, and premium-quality finishes and fixtures all contribute to a high level of comfort. The three high-speed elevators, the video intercom system, and the underground garage equipped for electric vehicle charging further enhance the project's exclusivity.

Thanks to its varied floor plans and apartment types, Marina City is an ideal choice whether you're looking for a primary residence, a second home, or an investment property.
