A first impression

Rain Square - Palazzo Tanari
In a historic palace of the 17th century, fully restored recently and of great value, as well as under the protection of Fine Arts, is available a wonderful attic of about 300 square meters. In excellent overall condition, it is located on the sixth and last floor (served by elevator up to the fifth floor). This property consists of an entrance directly into a huge living area within which the creation of a slotted terrace has already been arranged. In addition to velux windows, the living area has vertical windows, an eat-in kitchen, two bathrooms, a laundry room, two bedrooms, a walk-in closet, and the possibility of creating additional space internally through partitions and drywall. The attic has at least 3 closets/cloakrooms, one of which is outside the same, but on the floor, for cellar use. The heating system is autonomous.
